Subject: Top 10 Issues for Proposed Plan
Attachments: Top 10 State Issues for Proposed Plan 12-30-15.docx

Hi Cami and Davis. Attached are the State's top 10 issues that we would like to be the focus of our (DEQ/EPA) conversations over the coming months. These were briefly discussed at the December DEQ/EPA team meeting. Also, I am working with the DEQ team on logistics for the Jan 21 meeting in Seattle. Matt, Alex and I are interested in spending more time with EPA folks to focus on these issues, especially source control compliance and the definition of recontamination. We could spend Thursday night in Seattle if EPA folks would be available that afternoon/evening and the first half of Friday. Let me know what you think.

Thanks and have a happy New Year.
